

Kyklos

^{IT} — Un corpo orbitante alto solo due centimetri. Kyklos_P1 è un anello in poliuretano espanso, bianco o nella nuova finitura bronzo, a emissione indiretta. Kyklos_P2 ha un secondo anello superiore riflettente, capace di trasformare la lampada in sorgente a doppia emissione.

^{FR} — Un corps orbital haut de seulement deux centimètres. Kyklos_P1 est un anneau en polyuréthane expansé blanc ou dans la nouvelle finition bronze, à émission indirecte. Kyklos_P2 présente un second anneau supérieur réfléchissant, capable de transformer la lampe en source à double émission.

^{ES} — Un cuerpo orbitante de dos centímetros solamente de altura. Kyklos_P1 es un anillo de poliuretano expandido, blanco o en el nuevo acabado de bronce, con emisión indirecta. Kyklos_P2 presenta un segundo anillo superior reflectante, que transforma la lámpara en una fuente de emisión doble.

^{EN} — Orbiting casing two centimeters thick. Kyklos_P1 is a polyurethane ring with indirect light emission, available in white or in the new bronze finish. Kyklos_P2 with a second upper ring, transforming the luminaire in doubled emission.

^{DE} — Ein nur zwei Zentimeter großer Himmelskörper im Orbit. Kyklos_P1 ist ein Ring aus PU-Hartschaum in Weiß oder mit der neuen Oberfläche in Bronze und indirekter Lichtabstrahlung. Kyklos_P2 verfügt über einen zweiten, reflektieren Ring, der Leuchte in eine zweiflammige Lichtquelle verwandelt.

^{PY} — Вращающийся корпус высотой всего два сантиметра. Kyklos_P1 – это кольцо из белого пенополиуретана или с новой бронзовой отделкой с отраженным излучением. Kyklos_P2 имеет второе верхнее отражающее кольцо, которое способно превратить светильник в источник двойного излучения.
